## HID LIGHTING

### WHAT IS IT?

HID stands for High Intensity Discharge. It refers to new lighting technology that relies on an electrical charge to light the xenon gas contained in a sealed bulb. Unlike the halogen bulb, the HID bulb does not have a filament, because there is no filament the bulbs are not susceptible to vehicle vibration damage.

### HOW DOES IT WORK?

The HID bulb creates light by bridging an arc between two electrodes, instead of heating a filament. This lighting is similar to the energy transfer when lighting strikes. The arc stimulates the xenon gases producing an intense bright white beam of light.

### HOW DO I BENEFIT?

Replacing your factory bulbs with the "HID Conversion Kit" will gain you a complete new night time driving experience.

- 3X more light
- 33% less energy used
- Increased night time visibility
- Safer night time driving
- Longer lasting bulbs

## BULB TYPES

### TYPE 1 SINGLE FILAMENT

H1, H3, H7, H8, H9, H10 (9140,9145), H11 5202(9009,H16),880, 9005, 9006

Used for low beam, high beam or fog light applications.

### TYPE 2 HI/LOW, MOTORIZED HID KIT (BI-XENON)

H4-M2 (9003), H13-M2 (9008), 9004-M2 and 9007-M2

Bulbs have a HID low beam & HID high beam on one bulb.

### TYPE 3 HI / LOW KIT, HID LOW BEAM & H3 (HALOGEN) FOR HIGH BEAM

H4, H13 (9008) 9004, 9007

Bulbs have a HID Low beam & Halogen Bulb for High beam on one bulb.

## HID CONVERSION KITS

### FEATURES:

- 2,000 plus HID bulb life hours compared to 1,000 halogen bulb life hours
- O/E grade waterproof connections
- 3x brighter than halogen bulbs • 33% lower power consumption
- All parts are designed for auto/motorcycle applications
- Approved ISO9001:2000 E-Mark E4, E13, TUV and ROHS
- One year warranty

### HID CONVERSION KIT INCLUDES:

- TWO (2) Bulbs • TWO (2) Slim digital Ballasts
- Wiring Harness
- Installation instructions

*Beams Your Way!*

## HID CONVERSION KITS – WHAT TO SELL

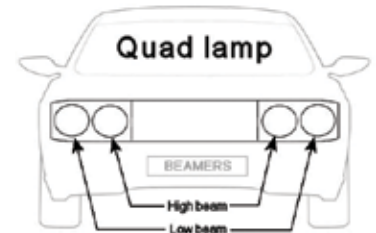

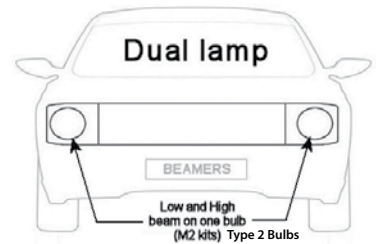

**Step 1:** Find vehicle application at [www.beamershids.com](http://www.beamershids.com)

**Step 2:** Select correct bulb type(s)

- **Quad Lamp Vehicles** - 2 potential kits - **Type 1 Bulb** - (one kit for low beam and one kit for high beam)  
Available in: H1, H3, H7, H8, H9, H10 (9140, 9145), H11, 5202 (H16, 9009), 880, 9005, 9006
- **Dual Lamps Vehicles** - 1 kit only - **Type 2 & 3 Bulbs** - (does both low and high beam on one kit)  
Available in H4, H4-M2, H13, H13-M2, 9004, 9004-M2, 9007, 9007-M2

**Step 3:** Select correct kit

- Sell Beamers Original Pro Digital Series** for all applications with exceptions as per below
- Canbus Kits** - (using Canbus ballasts, has letter 'C' in part number) - **only** used when installing **Low beam** on a quad lamp (single filament) vehicle for Jeep, Dodge, Chrysler, Subaru, All European & GM with new wiring platform (2010+Terrain, 2010+Equinox, 2011 Cruze, 2010 Lacrosse, 2010 Cadillac SRX). Example part no. HID-C-H11-6K. (Note, not to be used with Hi/Lo M-2 kits)

### CANBUS KITS

Part No	Descriptions	Part No	Descriptions
HID-C-9005-6K	9005	HID-C-H11-6K	H11
HID-C-9006-6K	9006	HID-C-H7-6K	H7

- High & Low beam for JEEP, DODGE, & CHRYSLER.** You must also sell an interface kit. An addition to the HID Kit(s). It installs between the vehicle & HID kit and facilitates plug-in simple installation. Use Beamers original Pro Series HID Kits.

### INTERFACE KITS

Part No	Descriptions	Part No	Descriptions
HID-INTKIT-D1	9005/9006 (quad lamp) HID interface kit	HID-INTKIT-D3	H13 (dual lamp) HID interface kit
HID-INTKIT-D2	H11/9005 (quad lamp) HID interface kit	HID-INTKIT-D4	9007/9004 (dual lamp) HID interface kit

## HID CONVERSION KITS – PART NUMBERS

### 35 WATT SERIES 6000K

Part No	Descriptions	Part No	Descriptions
HID-5202	HID LAMP KIT 5202 (H16)	HID-H4-M2	HID HIGH-LOW SYSTEM WITH MOTOR H4
HID-880	880 HID SET (will replace all 880 series)	HID-H7	HID LAMP KIT H7
HID-9004	HID LAMP KIT 9004 W/H3 INCLUDED	HID-H8	HID LAMP KIT H8
HID-9004-M2	HID HIGH-LOW SYSTEM WITH MOTOR 9004	HID-H9	HID LAMP KIT H9
HID-9005	HID LAMP KIT 9005	HID-H10	HID LAMP KIT H10 (9140, 9145)
HID-9006	HID LAMP KIT 9006	HID-H11	HID LAMP KIT H11
HID-9007	HID LAMP KIT 9007 W/H3 INCLUDED	HID-H13	HID LAMP KIT H13 W/H3 INCLUDED
HID-9007-M2	HID HIGH-LOW SYSTEM WITH MOTOR 9007	HID-H13-M2	HID HIGH-LOW SYSTEM WITH MOTOR H13
HID-H1	HID LAMP KIT H1		
HID-H3	HID LAMP KIT H3		
HID-H4	HID LAMP KIT H4 W/H3 INCLUDED		

All kits sold as 6000K which is optimum for distance and lighting.  
Available on a special order basis 3300K, 4300K, 8000K, 10,000K, 12,000K.
