Dodge Hitch

Your truck is a big part of your life, and so is your gooseneck trailer. That's why your hitch should be hefty enough for heavy-duty towing yet out of the way when the need arises to use the entire truck bed! The Blue Ox® gooseneck hitch has been a success in agricultural and horse trailer markets. **All Blue Ox goosenecks come with a three year warranty. See fit guide for more information.**

- No lever to release the ball
- Increased turning radius
- Cleaner look and installation
- Simple to use
- Optimal hitch location to properly locate the load on the truck's frame and suspension.
- Self locking ball
- One-person installation that takes less than two hours!

Chevy/GMC short
bed/dually hitch

Now you need it. Now you don't. That's our philosophy. The Blue Ox® gooseneck hitch design has been successful thanks to clean installation and the trustworthy inverted ball design. These goosenecks bolt directly to the truck frame and use existing bolts and holes whenever possible. It only requires one four-inch hole to be drilled into the truck bed for the ball cylinder placement. Our inverted ball has a spring-loaded locking mechanism that secures the ball in place — without the use of underbed levers!

**NO
underbed
levers!**

1
The inverted ball has a spring-loaded locking mechanism to secure the ball in place. Unlatch the ball by pushing the safety thumb lock to release then rotate and remove the ball.

2
Invert the ball and place back into the socket, maximizing precious truck bed space.

The ball is quick and easy to remove! Just simply push the safety thumb lock to release it, then rotate and pull.

Invert the ball and place it back into the socket to maximize your precious truck bed space.

Isn't that easy? Yes... just like it should be.

TOWING PRODUCTS

BedSaver™ Fifth Wheel Protection

Slip happens. It's not a matter of if, but a matter of when. Just think about it. You get ready for a well-planned, well-deserved trip. You check your truck tires, get a tune-up and pack the first-aid kit because you just never know what can happen. Fifth wheel owners need one more item to complete their safety check — a Blue Ox® BedSaver™. Dropping your fifth wheel is more common and dangerous than you might think. With BedSaver™, you can put those worries to rest. The BedSaver™ works for your towing truck by literally "catching" the kingpin if it slips off of the coupler. **Blue Ox® BedSaver™ comes with a one year warranty. See fit guide for more information.**

HOW IT WORKS

1

Fifth wheel hitch with BedSaver™ in place.

2

Fifth wheel kingpin fails to seat properly and slips off the hitch.

3

Fifth wheel kingpin slips safely and securely into the BedSaver™, protecting your truck bed!

THE FACTS

- Simple installation — no drilling or hitch modifications needed.
- No moving parts to wear out or break.
- Minimal maintenance after installation.
- The hitch operates normally.
