Swivel-Loc®

Hitch Alignment System

The innovative Swivel-Loc® Trailer Hitch allows for misalignment when backing up to your trailer.

GTW: 6,000 lbs
 TW: 600 lbs
 V-5 Rated

The Swivel-Loc® Hitch has more than a 180° swivel angle and goes in and out to cover an arc up to 10" away from the original hitch ball location, giving you many different angles and distances from the hitch to reach your trailer. To lock behind trailer simply pull towing vehicle forward until pull ring engages.
