

SlimLites

SlimLites feature a unique 6" diameter round housing with a flat profile that allows them to fit where many other lights won't. Their optical quality glass lens, halogen bulb and precision polished reflectors combine to generate a super bright and specially focused beam of light. Kits come complete with 2 lights and electrical installation kit.

Part#	Description
Wiring Kits	
3300	40 Amp Relay
6301	Basic Switch Kit
6315	Rear Harness Kit

Lite Bars

KC FRONT END LITE BARS are an attractive alternative to bulky bumpers and grille guards, they feature a great looking textured BLACK POWDER COAT finish. KC Lite Bars for pickups are made from 1-3/4" O.D. steel tubing with light tabs for mounting 2, 3 or 4 KC eight inch diameter lights, depending on model. KC Lite Bars for Jeeps are constructed using 1-1/2" O.D. (1-3/4" O.D. on the winch mount bar), steel tubing with mounting tabs for 2, 3 or 5 lights depending on model. Installation is simple, bolting up to existing factory holes, so there's no need for drilling, plus they're UPS shippable. See complete application chart on page 13 for model availability.

KC Tube Clamp Mounting Brackets

These rugged two piece mounting brackets are made in the U.S.A. from super tough injection molded glass filled nylon composite. There are currently three models available to be used on 1.5" to 3" round tubing. They feature a 1/2" mounting hole that will accommodate a host of bolt-on accessories. They are perfect for mounting KC lights to a light bar, tube bumper or grill guard without having to weld on extra tabs. Use them to mount antennas, auxiliary mirrors, whips or as a useful anchor point for cargo tie downs. There are so many uses for this bracket, limited only by your imagination. All KC Tube Clamp Brackets are sold individually.

- Part #7307: Fits 1.5" to 2" Round Tubing
- Part #7308: Fits 2.25" to 2.5" Round Tubing
- Part #7309: Fits 2.75" to 3" Round Tubing
