

# Pro Blaster™ AIR HORN KITS

Horn	8.25" x 6.5" x 3"	Tank	6.5" x 5.75" x 8"
Compressor	7.5" x 2.25" x 4.5"	Output	151.4 dB @ 100 PSI

## HK1

Our most compact air horn kit. Two chrome all-metal trumpets 8.5" and 6.5" in length. Compact with high pitch, painful sound. The kit also includes an easy-to-fit 120 PSI air system with 0.5 gallon air tank.

**EASY FIT** IN ANY VEHICLE

Horn	17" x 8" x 4"	Tank	6.5" x 5.75" x 8"
Compressor	7.5" x 2.25" x 4.5"	Output	146 dB @ 100 PSI

## HK2

Dual chrome, all-metal truck horn with two trumpets 16.75" and 14.5" in length. Think fire truck or ambulance horn but LOUDER! The flat design allows for easy mounting behind the grille, in the engine compartment, or on a frame rail. The kit includes a sealed 120 PSI air system with a 0.5 gallon air tank.

**EASY FIT** IN ANY VEHICLE

Horn	14.5" x 7" x 6"	Tank	10.75" x 5.75" x 8"
Compressor	6.25" x 3.25" x 5"	Output	148.7 dB @ 100 PSI

## HK3

Compact chrome, all-metal triple train horn with three tuned trumpets 14.25", 11.5", and 9.25" in length. This horn produces a startling blended three-tone blast that is guaranteed to get attention. The package includes a 130 PSI air compressor and 1 gallon tank for more blast time.

**LONGER SOUND** AND LONGER BLAST

Horn	14.5" x 7" x 7"	Tank	10.75" x 5.75" x 8"
Compressor	6.25" x 3.25" x 5"	Output	149.2 dB @ 100 PSI

## HK4

All-chrome quad air horn with four tuned trumpets – 13", 11", 8.5", and 7". More trumpets mean a more full, blended tone. The horns are compact enough to fit in almost any vehicle, but they pack a punch that will make your head spin. The kit includes a 130 PSI compressor with a 1 gallon air tank.

**LONGER SOUND** AND LONGER BLAST

## Pro Blaster™ Kits: Everything You Need

Take the guesswork out of putting together an air horn kit. Kleinn Pro Blaster™ air horn packages include everything you need for a complete air horn or train horn system. Everything comes in the box! Every Kleinn Pro Blaster™ air horn and train horn kit includes:

- ✓ Extremely loud air horn or train horn
- ✓ Air compressor (water/dust resistant)
- ✓ Heavy duty steel air tank
- ✓ Wiring/Installation kit \* Horn push-button
- ✓ Heavy duty nylon tubing
- ✓ All necessary fittings and hardware
- ✓ Installation instructions and wiring diagrams

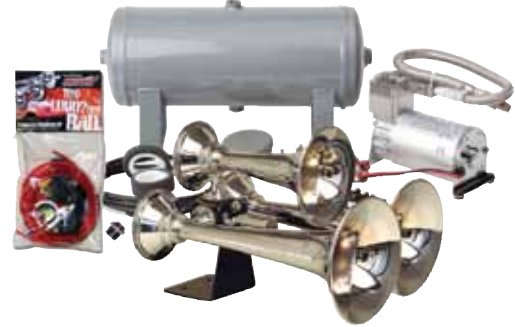

Horn 1	10.5" x 4.5" x 6"	Compressor	6.5" x 3.5" x 4.5"
Horn 2	15.5" x 6.5" x 6.5"	Tank	14.25" x 5.5" x 8"

### HK5

Dual black wide-bell ABS trumpets 15.5" and 10.5" in length. Trumpets mount separately, each with its own mounting bracket and solenoid which makes the kit easy to install on smaller vehicles. These horns are designed for durability, easy fit, and extreme sound. The kit includes a 150 PSI compressor and 1.5 gallon air tank.

#### EASY FIT AND TRAIN HORN SOUND

Horn	17.5" x 15" x 11"	Tank	14.25" x 5.5" x 8"
Compressor	6.5" x 3.5" x 4.5"	Output	151.7 dB @ 150 PSI

### HK6

Three tuned trumpets, 16", 14", 11". Chrome plated high impact ABS. There's no mistaking that genuine train horn sound – when these horns sound you'll swear that you're standing on the tracks. The kit includes a 150 PSI compressor and 1.5 gallon air tank.

#### MOST AUTHENTIC TRAIN HORN SOUND

Horn	18.25" x 18" x 7"	Tank	20" x 6.5" x 9.25"
Compressor	9" x 4" x 7"	Output	153.3 dB @ 150 PSI

### HK7

Three tuned trumpets, 16", 14", 11". Chrome plated high impact ABS. There's no mistaking that genuine train horn sound – when these horns sound you'll swear that you're standing on the tracks. The kit includes a 150 PSI compressor and 1.5 gallon air tank.

#### LOUD TRAIN HORN SOUND WITH TIRE INFLATION KIT

Horn	18.25" x 18" x 7.25"	Tank	20" x 6.5" x 9.25"
Compressor	9" x 4" x 7"	Output	157.3 dB @ 150 PSI

### HK8

The flat rack design and detachable chrome trumpets 17.5", 15.5", and 11.5" allow for numerous great installation options. The kit includes a BlastMaster™ valve upgrade kit that pushes the sound to an insane 157 dB! A 150 PS, 100% duty compressor and a 3 gallon tank power your air horns as well as other accessories like air bags and small air tools. Tire inflation kit included.

#### OUR LOUDEST PACKAGE

# Trail Blaster™

## BOLT-ON AIR HORN KIT FOR JEEP WRANGLER JK

The horn mounts on factory bolts mid-vehicle between the drift shaft and exhaust

The air system bolts on to the factory cross member above the rear differential using a custom bracket

**This custom air horn kit, made specifically for Jeep Wranglers 2007 and up, includes a super loud black dual air horn, 120 PSI air system, and custom designed mounting brackets that eliminate the drilling, welding or cutting normally required for mounting an air horn system. The USA-made brackets bolt on to existing factory bolts and beams, dramatically reducing the installation time. The package comes complete with a wiring kit, air tubing, push button switch, and all the necessary air fittings and mounting hardware.**

## TRAIN HORNS

### MODEL 500

- Three trumpet train horn
- 151 - 154 db output - Sound clip
- Chrome plated trumpets
- Reversible trumpets
- Authentic train horn sound
- 16", 14" and 11" trumpets

## THE BEAST

### MODEL 230

- "The Beast" Triple Train Horn
- 153 db output - Sound clip
- Black ABS Trumpets
- Detachable trumpets
- Authentic train horn sound
- 17.5", 14.5" and 11.5" trumpets

## COMPACT HORN

### MODEL 130

- 3 trumpets, 14.5", 11.5" and 9.25"
- Chrome zinc alloy trumpets
- Vortex 4 12v electronic solenoid included
- Can fit in almost any vehicle

## AIRFLOW KIT

### MODEL 6380

- Upgrade kit for model 230 & 630 train horns.

## AIR VALVES

VX7003

### VORTEX 7 SERIES

Vortex 7 Series valve feature larger coils for increased performance under high pressure, all metal manifold with replaceable diaphragms, protective water resistant casing for electrical connections. Max air flow with 16mm orifice. Available with 3/8" and 1/2" brass or 1/2" stainless steel.

P/N	Inlet Size	Orifice	Max Pressure
VX7003	3/8" NPT	16mm	250 PSI
VX7004	1/2" NPT	16mm	250 PSI
VX7004SS	1/2"	16mm	250 PSI

## AIR VALVES

307

### VORTEX 4 SERIES

Vortex 4 Series air valves are perfect for any basic air valve need. Great for both air horns and air suspension systems. These valves are all chrome finished and include brass fittings and adaptors.

P/N	Inlet Size	Orifice	Max Pressure
307*	1/8" NPT	4mm	175 PSI
VX4003	3/8" NPT	5mm	175 PSI

\*1/8" FPT inlet, 1/4" MPT outlet, this valve is std on all Kleinn Horns except 502.

## MANUAL VALVE

314

### MODEL 314

Stainless steel manual ball valve, 1/4" F NPT inlet, 1/4" F NPT outlet.

## ELECTRIC SWITCH

### MODEL 318

"The Detonator" unleash the fury of any Kleinn horn with this all black flush mount push button. The visible part of the button when installed is 1" in diameter. The button has screw terminals for easy connections.

## PRESSURE GAUGE

### MODEL 1021

Dash mount air pressure gauge with mounting bracket. Black with chrome trim. Kleinn HD gauges read up to 250 PSI & have 2" diameter displays that read in both lb/in<sup>2</sup> and kg/cm<sup>2</sup>. 1/4" M NPT air inputs.

## PRESSURE SWITCHES

2145

### MODEL 2145

Heavy duty tank-mounted pressure switch regulates the air pressure in your air tank. The pressure switch gets wired to the compressor and turns the air compressor on and off automatically.

MODEL	DETAILS
2105	85 PSI on, 105 PSI off
2120	90 PSI on, 120 PSI off
2200	170 PSI on, 200 PSI off
2130	100 PSI on, 130 PSI off
2150	120 PSI on, 150 PSI off
