ACCESSORIES

Leveling the front of your vehicle is now easy and affordable. Pro Comp's new Level Lift kits raise the front of the vehicle 1.5" to 2.5" inches giving your vehicle a proper stance and improved appearance. This increases vehicle ground clearance and allows for the use of larger diameter wheel and tire combinations.\* Best of all, the Level Lift kit does not change the overall suspension or steering geometry which will allow the vehicle to retain its OEM ride quality.
