

MODULAR DESIGN PROVEN
STRONGER THAN TRADITIONAL
ONE-PIECE WELDED UNITS

Road Armor is capitalizing on the distinctive look of its full-replacement bumpers and introducing the Brush-guard line of products. The muscular design accentuates the looks of each truck and provides a level of utility that has no rival in today's market. Installation is strictly bolt-on, and each guard is backed by a one-year limited warranty against manufacturer defects.

Product Features:

- Three-piece modular design that has been proven stronger than traditional one-piece welded units.
- Made of .120- & .085-wall, high-density tubing, CNC bent and laser coped for superior fitment.
- Four light mounts hold up to six-inch-diameter lights or select LED light bars from Rigid or Vision-X.
- Bolt-on eye tubes are made of 1.25-inch-diameter, high-density tubing that is lighter and stronger than standard .120 wall.
- Center section tubes are made of two-inch-diameter, .120-wall tubing.
- Each unit is finished in satin black powdercoat, not paint (like our competitors).

THE QUALITY YOU
KNOW AND EXPECT,
NOW AVAILABLE AS A
BRUSH GUARD.
