

SPEED GRILLES

Inspired by European racing designs, Street Scene is proud to manufacture the Speed Grille. They have a very unique, patented design featuring a diamond-shaped hole pattern and are available in a standard anodized 5052-grade aluminum satin, chrome, high polish stainless steel finish or our newest addition: black chrome finish. The satin finish may be painted to colour match vehicles. Most speed grilles do not require cutting or drilling of the factory grille shell for installation, using our patent-pending clip-on system.
