SWIFT HITCH - NEW MODEL SH02

PORTABLE WIRELESS COLOR CAMERA SYTEM NOW OFFERING 10 HOUR CAMERA RUN-TIME

Swift Hitch was designed to assist anyone who has ever struggled with hitching any style trailer or snowplow. Totally portable, charge camera and display / receiver from any vehicle 12volt socket (charge cable included) and will run continuous for up to 4 hours. The fully automatic night vision camera allows the user to hitch up in total darkness.

Features include:

- Longest run-time of any portable system
- No installation
- Hi-resolution color display
- One button operation
- Fully automatic night vision camera
- Strong magnetic mount on camera for ease of use
- User selectable reverse (default) or normal image
- Dozens of uses
- Charges from vehicle 12 volt socket

Here are some of the many other uses customers have found for Swift Hitch

Electrician	Used to look into tight spaces on remodeling jobs.
Construction	Used to view work from a different angle when alone.
Chimney Sweep	Mounted the camera on a pole using the ¼ 20 thread on camera to inspect a chimney. The night vision is the key.
Farmers	Hitching tractor to farm implements; monitor filling grain carts and silos
Agriculture	Monitor the loading of grain haulers. Save time while hitching tractors to farm implements. The list around the farm is endless!
RV Owners	Use Swift Hitch while adjusting the satellite dish for best reception. Simply point the camera at the TV and hold the display to fine tune the dish position. On a stopover or while camping to monitor sleeping child while your sitting just outside the vehicle.
Hunters	Place the camera up to 100 yards away for view of game as it approaches - check local laws in advance
Boat Owners	Position the camera on the corner of your boat while backing down a ramp to launch or while backing in to a slip; to visual inspect an inboard engine for leaks while performing preventive maintenance; to locate something dropped in the bilge.
Marine Surveyors	Attach the camera to a pole to make quick view of tight spots during below deck inspections
Home Surveyors	Attach the camera to a pole to allow easy view of crawl spaces and attic where space is limited
