

# Suspension Enhancement Systems

# TIMBREN SES

TIMBREN

For Tow Vehicles, Motor Homes, Slide-in Campers, Vans & SUVs

Everything in one box

## SOLVING PROBLEMS

### ◆ Suspension Sag

Eliminate Suspension Sag when towing a heavy trailer. Timbren SES extends the life of your suspension and helps to avoid bottoming out.

### ◆ Trailer Sway

Control Trailer Sway - a condition which sometimes occurs with unbalanced loads, in crosswinds or when passing heavy trucks. Timbren SES stabilizes your vehicle.

### ◆ Body Roll

Control Body Roll during cornering with powerful progressive rate rubber springs which resist lean and enhance vehicle stability.

### ◆ Rough Ride

Improve the Ride by allowing the Aeon® hollow rubber springs to absorb road shocks and bumps. Towing a trailer doesn't have to mean poor ride quality.

## Easy Bolt-On No Drilling

It's this easy!  
Just remove the bump stop from the frame

Mount Aeon® hollow rubber spring to bracket and assemble to frame

- Eliminate Sag & Sway
- Optimize Load Handling
- Improve Roll Stability
- Cushion Road Shocks
- Improve Ride Comfort

**We guarantee it!**

**Trouble Free Permanent Solution**

You can trust TIMBREN SES for the Best Ride, Best Handling Vehicles.
