

Fiberbuilt® All-Weather Anti-Spray Curtains

The all-weather anti-spray curtain has proven to be a very effective method of reducing the dangerous road spray associated with wet weather driving. By efficiently controlling the outward and trailing spray generated by the vehicle tires, the anti-spray curtain contributes to a much higher degree of driving safety. Cleaner vehicles, significantly improved following vehicle visibility, and ease of installation are just a few of these products' benefits.

RV Anti-Spray Curtain

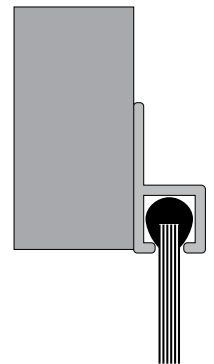

- Effective method of reducing the dangerous road spray associated with wet weather driving
- Efficiently controls the outward and trailing spray generated by the vehicle tires

Description	Part No.
Fiberbuilt Dirt Skirt 16"	45-2-16
