One Piece Polycarbonate Construction

RETRAX is unique because it is manufactured from Lexan®, a durable thermoplastic. This material is sure to keep your cargo safe and secure in the most extreme elements!

Easy No Drill Installation

The RETRAX is a clamp on design, which requires only a 9/16" wrench and a Philips screwdriver. The cover installs easily in approximately one hour!

Key Lockable In ANY Position

The RETRAX cover can be locked in any position along the rail. Unlike toppers or lift-up fiberglass lids, the RETRAX won't obstruct your cargo area when you need it most!

Spiral Track Storage System

The RETRAX uses a unique spiral track storage canister that prevents the cover from rubbing on itself as it retracts and closes, eliminating any wear and tear on the cover!

RETRAX™

Note: GM (88-06) and F-150 models can be interchanged with the use of a rails spacer kit; please call for details.

Flush Front Cover

The RETRAX low profile patented design incorporates a front cover that is flush with the rolling cover. This streamlines the overall appearance and provides a firm, dependable seal to help keep the bed dry!

Glides Easily On Sealed Ball Bearings

Sealed ball bearing rollers mounted onto each end of the aluminum support beams allow the cover to open or retract easily with just one hand to help keep the bed dry!

Automotive Grade Weather-strips

The RETRAX utilizes automotive grade weather-strip seals to ensure a secure seal. This design keeps water, snow, ice, and dust out of the bed and moving parts! to help keep the bed dry!

Improves Gas Mileage up to 10%

The RETRAX cover has been shown to increase gas mileage 1-3 mpg, or as much as 10%!
