

BEAMERS

Beams Your Way!

HID CONVERSION KITS

33% Lower Power Consumption Than Halogen
3X More Light Than Halogen
33% Less Energy Used Than Halogen
100X Cooler Than Halogen

What is HID?

HID stands for High Intensity Discharge. It refers to new lighting technology that relies on an electrical charge to light the xenon gas contained in a sealed bulb. Unlike the halogen bulb, the HID bulb does not have a filament, because there is no filament the bulbs are not susceptible to vehicle vibration damage.

How Does It Work?

The HID bulb creates light by bridging an arc between two electrodes, instead of heating a filament. This lighting is similar to the energy transfer when lightning strikes. The arc stimulates the xenon gases producing an intense bright white beam of light.

HID Conversion Kit

- Includes: Two Bulbs, Two Slim digital Ballasts, Wiring Harness(Included in Hi/Low Kits only)
- O/E grade waterproof connections
- 2,000 plus HID bulb life hours compared to 1,000 halogen bulb life hours
- All parts are designed for auto/motorcycle applications
- Approved ISO9001:2000 E-Mark E4, E13, TUV and ROHS
- **Increased night time visibility** • 1 Year Warranty
- **Safer night time driving** • Longer lasting bulbs

Description	Part No.	Description	Part No.
5202 HID Kit	HID5202	H4 HID Kit	HID-H4
880 HID Kit	HID880	H7 HID Kit	HID-H7
9004 Hi/Low Beam HID Kit	HID-9004-M2	H8 HID Kit	HID-H8
9004 HID Kit	HID-9004	H9 HID Kit	HID-H9
9005 HID Kit	HID-9005	H10 HID Kit	HID-H10
9006 HID Kit	HID-9006	H11 HID Kit	HID-H11
9007 Hi/Low Beam HID Kit	HID-9007-M2	H13 Hi/Low Beam HID Kit	HID-H13-M2
9007 HID Kit	HID-9007	H13 Kit	HID-H13
H1 HID Kit	HIDH1	50 Watt Resistor 06-08 Dodge Ram	HID-R50W*
H3 HID Kit	HID-H3	Dodge Ram H13 Resistor	HID-LCM*
H4 Hi/Low Beam HID Kit	HID-H4-M2		

Note: *4 required for install

All kits sold as 6000k, which is optimum color temperature.

Other kits available on special order basis are; 3300k, 4300k, 8000k, 10,000k, 12,000k.
