Cargo Restraint Systems

The Original BEDNET

There's nothing like the all-new patented BEDNET. It's THE cargo restraint system offering unmatched features that make hauling any size load safer and easier. BEDNET looks great, accentuating the style of any pick-up. BEDNET comes in three sizes to fit most every truck and comes packaged in its own canvas tool-bag style carrying case. Available in black only. 250 lbs. load limit.

Large #0101 (full size long beds),

Medium #0102 (full size short beds),

Small #0103 (compact)

BEDNET Compact Utility Net #0402

Awarded GMC Best Professional Grade Cargo Management SEMA 2003

The BEDNET Compact Utility Net is 33" x 24" and is made with high strength 100% polyester webbing with brass grommets throughout the net allowing for a variety of applications. This net can be used to secure cargo on an ATV, motorcycle, small trailer, in the cargo area of an SUV or can even be used on a luggage rack. The Compact Utility Net is extremely versatile and made of the same high quality construction as our other BEDNET products. Available in black only.

BEDNET Utility Cargo Net #0272

The BEDNET Utility Cargo Net is the highest quality, commercial grade, universal cargo restraint available. This premium product is made with high-strength 100% polyester webbing and has reinforced heavy-duty brass grommets strategically placed throughout so that it can be easily adjusted. This product is available in one size (6' x 7') to fit most any load. Available in tan only. Tie-downs are not included. 250 lbs. load limit.
